

# SAFETY DATA SHEET

legal basis:  
COMMISSION REGULATION (EU) 2020/878 of 18 June 2020 amending Annex II to  
Regulation (EC) No 1907/2006 of the European Parliament and of the Council (REACH)

## POLLOCEL / POLOFIX

Creation date	29th May 2024	Version	1
Revision date			

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

- 1.1. Product identifier**
- |                      |                               |
|----------------------|-------------------------------|
| Substance / mixture  | POLLOCEL / POLOFIX            |
| Chemical name        | substance                     |
| CAS number           | Sodium carboxymethylcellulose |
| EC (EINECS) number   | 9004-32-4                     |
| Registration number  | 618-378-6                     |
| Other substance name | polimer                       |
|                      | POLLOCEL AS-2/10              |
|                      | POLLOCEL AS-2/170             |
|                      | POLLOCEL AS-2/30              |
|                      | POLLOCEL AS-2/60              |
|                      | POLLOCEL AS-2/90              |
|                      | POLLOCEL ASM/30               |
|                      | POLLOCEL ASM/60               |
|                      | POLLOCEL ASM/90               |
|                      | POLLOCEL NS-2/60              |
|                      | POLLOCEL NS-2/90              |
|                      | POLOFIX HV                    |
|                      | POLOFIX LV                    |
|                      | POLOFIX LV/BT                 |
- 1.2. Relevant identified uses of the substance or mixture and uses advised against**
- Substance's intended use**  
Protective colloid, thickener, emulsion stabilizer and suspension stabilizer, binder and adhesive, film-forming agent
- Substance uses advised against**  
The product should not be used in ways other than those referred in Section 1.
- 1.3. Details of the supplier of the safety data sheet**
- Supplier**
- |                    |  |
|--------------------|--|
| Name or trade name | CMC S.A.                                     |
| Address            | ul. Weteranów 12, Warszawa, 03-172<br>Poland |
| Phone              | +48 515 197 781                              |
| E-mail             | lab@cmcsa.pl                                 |
- Competent person responsible for the safety data sheet**
- |        |              |
|--------|--------------|
| Name   | CMC S.A.     |
| E-mail | lab@cmcsa.pl |
- 1.4. Emergency telephone number**  
+48 515 197 781 (8-16)  
European emergency number: 112

### SECTION 2: Hazards identification

- 2.1. Classification of the substance or mixture**  
**Classification of the substance in accordance with Regulation (EC) No 1272/2008**  
The substance is not classified as dangerous according to Regulation (EC) No 1272/2008.
- 2.2. Label elements**  
none
- 2.3. Other hazards**  
Product is combustible, but not flammable. The endocrine-disrupting properties of the substance have not been studied. Substance does not meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) No. 1907/2006 (REACH) as amended. Dust may form explosive mixture with air. Dust generated during handling of this product may cause adverse health effects. Avoid dust generation during work.

# SAFETY DATA SHEET

legal basis:  
COMMISSION REGULATION (EU) 2020/878 of 18 June 2020 amending Annex II to  
Regulation (EC) No 1907/2006 of the European Parliament and of the Council (REACH)

## POLLOCEL / POLOFIX

Creation date 29th May 2024  
Revision date Version 1

### SECTION 3: Composition/information on ingredients

#### 3.1. Substances

##### Chemical characterization

The substance specified below.

Identification numbers	Substance name	Content in % weight	Classification according to Regulation (EC) No 1272/2008	Note
CAS: 9004-32-4 EC: 618-378-6 Registration number: polimer	<b>substance main component</b> Sodium carboxymethylcellulose	<100	not classified as dangerous	

Full text of all classifications and hazard statements is given in the section 16.

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

Take care of your own safety. If any health problems are manifested or if in doubt, inform a doctor and show him information from this safety data sheet.

##### If inhaled

Possible exposure to dust or fine particles. Terminate the exposure immediately; move the affected person to fresh air.

##### If on skin

Wash the affected area with plenty of water, lukewarm if possible.

##### If in eyes

Possible eye contamination during exposure to fine particles or dust. Rinse eyes immediately with a flow of running water, open the eyelids (also using force if needed); remove contact lenses immediately if worn by the affected person.

##### If swallowed

Rinse out the mouth with clean water. In the event of issues, find medical help.

#### 4.2. Most important symptoms and effects, both acute and delayed

##### If inhaled

Not expected.

##### If on skin

Not expected.

##### If in eyes

Direct contact with dust can cause irritation due to mechanical abrasion.

##### If swallowed

Not expected.

#### 4.3. Indication of any immediate medical attention and special treatment needed

The physician, after assessing the condition of the injured person, makes a decision regarding the course of action.

##### More information

Other relevant information is not available.

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

##### Suitable extinguishing media

Product is combustible, but not flammable. Alcohol-resistant foam, carbon dioxide, powder, water spray jet, water mist.

##### Unsuitable extinguishing media

Not defined.

#### 5.2. Special hazards arising from the substance or mixture

Dust accumulating in enclosed or unventilated spaces may form explosive mixtures with air. In the event of fire, carbon monoxide, carbon dioxide and other toxic gases may arise. Inhalation of hazardous degradation (pyrolysis) products may cause serious health damage.

# SAFETY DATA SHEET

legal basis:  
COMMISSION REGULATION (EU) 2020/878 of 18 June 2020 amending Annex II to  
Regulation (EC) No 1907/2006 of the European Parliament and of the Council (REACH)

## POLLOCEL / POLOFIX

Creation date	29th May 2024	Version	1
Revision date			

### 5.3. Advice for firefighters

Self-Contained Breathing Apparatus (SCBA) with chemical resistant gloves. Use a self-contained breathing apparatus and full-body protective clothing.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Minimize the generation of dust. Do not inhale dust. Follow the instructions in the Sections 7 and 8. Forms slippery coatings with water.

### 6.2. Environmental precautions

Prevent contamination of the soil and entering surface or ground water.

### 6.3. Methods and material for containment and cleaning up

Place the product mechanically in an appropriate manner. Dispose of the collected material according to the instructions in the section 13. Avoid dust formation. Floor with the spilled, dissolved product are very slippery. After removal of the product, wash the contaminated site with plenty of water. Cover the spilled, dissolved material with an appropriate (non-flammable) absorbent material (such as sand, silica gel, clay, or other suitable absorbent materials), collect in well-closed containers, and dispose of in accordance with Section 13.

### 6.4. Reference to other sections

See the Section 7, 8 and 13.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Use personal protective equipment as per Section 8. Observe valid legal regulations on safety and health protection. It is recommended to control dust emissions. Avoid creating dust.

### 7.2. Conditions for safe storage, including any incompatibilities

After using, packaging must be tightly closed again to prevent uncontrolled release. Store in tightly closed containers in cold, dry and well ventilated areas designated for this purpose. For very fine and dry dusts (particle size below 63 µm, moisture content below 3%), there is a potential explosion risk. This risk occurs only when both conditions are met simultaneously. Under normal operating conditions, the moisture content of dust deposits typically remains above 8%.

### 7.3. Specific end use(s)

Apart from the already mentioned guidelines, it is not necessary to follow any specific recommendations for the use of this product.

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

none

#### Other information of limit values

J.L. 2021.325 (Poland)

Dusts unclassified due to toxicity - inhalable fraction.

NDS: 10 mg/m<sup>3</sup>

### 8.2. Exposure controls

Do not eat, drink and smoke during work. Wash your hands thoroughly with water and soap after work and before breaks for a meal and rest. Ensure proper ventilation or an exhaust system in areas with high dust concentrations.

#### Eye/face protection

In case of eye contamination risk, protective goggles or face shields (depending on the type of work being performed) must be worn, in accordance with EN 166.

#### Skin protection

When handling in long-term or repeatedly, use protective gloves.

#### Respiratory protection

It is not needed. In case of dust or when the maximum allowable concentration is exceeded, it will be necessary to use respiratory protection (e.g. a mask with a FFP2 filter).

#### Thermal hazard

Product is combustible, but not flammable.

#### Environmental exposure controls

Observe usual measures for protection of the environment, see Section 6.2.

# SAFETY DATA SHEET

legal basis:  
COMMISSION REGULATION (EU) 2020/878 of 18 June 2020 amending Annex II to  
Regulation (EC) No 1907/2006 of the European Parliament and of the Council (REACH)

## POLLOCEL / POLOFIX

Creation date	29th May 2024	Version	1
Revision date			

### SECTION 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

Physical state	solid
Colour	yellow
color intensity	light
Odour	without fragrance
Melting point/freezing point	cannot be determined - decomposition occurs
Boiling point or initial boiling point and boiling range	cannot be determined - decomposition occurs
Flammability	flammable, but not readily flammable
Lower and upper explosion limit	not applicable
Flash point	not determined
Auto-ignition temperature	≥210 °C (Gliwitzky)
Decomposition temperature	not determined
pH	6-11 (undiluted) (depending on type)
Kinematic viscosity	not applicable
Solubility in water	soluble (forms sticky solutions)
Solubility in bases	soluble (forms sticky solutions)
Partition coefficient n-octanol/water (log value)	not determined
Vapour pressure	not applicable
Density and/or relative density	
Density	1.5 g/cm <sup>3</sup>
Relative vapour density	not applicable
Particle characteristics	not determined
Form	solid: particulate/powder

#### 9.2. Other information

Formation of explosible dust/air mixtures	Dusts can form explosive mixtures with air.
Bulk density	0.3-0.7 g/cm <sup>3</sup>
Combustion temperature	215 °C
none	

### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

Product is combustible, but not flammable. When used in the standard way, there is not any dangerous reaction with other substances.

#### 10.2. Chemical stability

The product is stable under normal conditions.

#### 10.3. Possibility of hazardous reactions

During processing, dust may form creating explosive mixtures with air.

#### 10.4. Conditions to avoid

The product is stable and no degradation occurs under normal use. Keep away from flames, sparks, overheating, electrostatic charge and other sources of ignition.

#### 10.5. Incompatible materials

Protect against strong acids, bases and oxidizing agents.

#### 10.6. Hazardous decomposition products

Not developed under normal uses. Dangerous outcomes such as carbon monoxide and carbon dioxide are formed at high temperature and in fire.

### SECTION 11: Toxicological information

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Inhalation of dust may lead to adverse health effects.

# SAFETY DATA SHEET

legal basis:  
COMMISSION REGULATION (EU) 2020/878 of 18 June 2020 amending Annex II to  
Regulation (EC) No 1907/2006 of the European Parliament and of the Council (REACH)

## POLLOCEL / POLOFIX

Creation date 29th May 2024  
Revision date Version 1

### Acute toxicity

Based on available data the classification criteria are not met.

POLLOCEL / POLOFIX					
Route of exposure	Parameter	Value	Exposure time	Species	Sex
Oral	LD <sub>50</sub>	>25000 mg/kg		Rat (Rattus norvegicus)	
Dermal	LD <sub>50</sub>	>2000 mg/kg		Rabbit	
Inhalation (dust/mist)	LC <sub>50</sub>	>5800 mg/m <sup>3</sup>	4 hours	Rat (Rattus norvegicus)	

Sodium carboxymethylcellulose					
Route of exposure	Parameter	Value	Exposure time	Species	Sex
Oral	LD <sub>50</sub>	27000 mg/kg		Rat (Rattus norvegicus)	
Inhalation (dust/mist)	LC <sub>50</sub>	>5800 mg/l	4 hours	Rat (Rattus norvegicus)	
Dermal	LD <sub>50</sub>	>2000 mg/kg		Rabbit	

### Skin corrosion/irritation

Based on available data the classification criteria are not met.

### Serious eye damage/irritation

Based on available data the classification criteria are not met.

### Respiratory or skin sensitisation

Based on available data the classification criteria are not met.

### Germ cell mutagenicity

Based on available data the classification criteria are not met.

### Carcinogenicity

Based on available data the classification criteria are not met.

### Reproductive toxicity

No data available for the substance. Based on available data the classification criteria are not met.

### Toxicity for specific target organ - single exposure

Based on available data the classification criteria are not met.

### Toxicity for specific target organ - repeated exposure

Based on available data the classification criteria are not met.

### Aspiration hazard

Based on available data the classification criteria are not met.

## 11.2. Information on other hazards

The endocrine-disrupting properties of the substance have not been studied.

## SECTION 12: Ecological information

### 12.1. Toxicity

Based on available data the classification criteria are not met.

# SAFETY DATA SHEET

legal basis:  
COMMISSION REGULATION (EU) 2020/878 of 18 June 2020 amending Annex II to  
Regulation (EC) No 1907/2006 of the European Parliament and of the Council (REACH)

## POLLOCEL / POLOFIX

Creation date 29th May 2024  
Revision date Version 1

### Acute toxicity

Sodium carboxymethylcellulose						
Parameter	Method	Value	Exposure time	Species	Environment	Source
LC <sub>0</sub>	OECD 203	>10000 mg/l		Fish (Brachydanio rerio)		
LC <sub>0</sub>	OECD 203	>5000 mg/l		Fish (Leuciscus idus)		
LC <sub>50</sub>	OECD 203	>21000 mg/l	96 hours	Fish (Oncorhynchus mykiss)		
EC <sub>0</sub>	OECD 202	>1000 mg/l	48 hours	Daphnia (Daphnia magna)		
EC <sub>0</sub>		>1000 mg/l		Bacteria	Activated sludge	DIN 38412 T.27

### 12.2. Persistence and degradability

There are no ecotoxicological data available for the product.

#### Biodegradability

Sodium carboxymethylcellulose						
Parameter	Method	Value	Exposure time	Environment	Result	Source
	OECD 301B	30 %	28 days		Hardly biodegradable	Degradacja DOC

### 12.3. Bioaccumulative potential

No data available for the substance.

### 12.4. Mobility in soil

The product is soluble and mobile in water and soil.

### 12.5. Results of PBT and vPvB assessment

Product does not contain any substance meeting the criteria for PBT or vPvB in accordance with the Annex XIII of Regulation (EC) No 1907/2006 (REACH) as amended.

### 12.6. Endocrine disrupting properties

Properties of the substance disrupting the function of the hormonal system in the aquatic environment are not known.

### 12.7. Other adverse effects

Unknown.

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

Proceed in accordance with valid regulations on waste disposal. Any unused product and contaminated packaging should be put in labelled containers for waste collection and submitted for disposal to a person authorised for waste removal (a specialized company) that is entitled for such activity. Do not dispose unused product in drainage systems. The product must not be disposed of with municipal waste. Empty containers may be used at waste incinerators to produce energy or deposited in a dump with appropriate classification. Perfectly cleaned containers can be submitted for recycling. Avoid dust formation.

#### Waste management legislation

Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste, as amended. Decision 2000/532/EC establishing a list of wastes, as amended.

## SECTION 14: Transport information

### 14.1. UN number or ID number

not subject to transport regulations

### 14.2. UN proper shipping name

not relevant

### 14.3. Transport hazard class(es)

not relevant

# SAFETY DATA SHEET

legal basis:  
COMMISSION REGULATION (EU) 2020/878 of 18 June 2020 amending Annex II to  
Regulation (EC) No 1907/2006 of the European Parliament and of the Council (REACH)

## POLLOCEL / POLOFIX

Creation date	29th May 2024	Version	1
Revision date			

#### 14.4. Packing group

not relevant

#### 14.5. Environmental hazards

Product is not an environmental hazard according to the criteria of the UN Model Regulations.

#### 14.6. Special precautions for user

Reference in the Sections 4 to 8.

#### 14.7. Maritime transport in bulk according to IMO instruments

Not applicable - not intended for bulk transportation.

#### Additional information

Avoid dust emissions during transportation by using the manufacturer's packaging.

### SECTION 15: Regulatory information

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18th December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing the European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No. 793/93 and Commission Regulation (EC) No. 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, as amended. REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. Commission Regulation (EU) 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

#### 15.2. Chemical safety assessment

Chemical safety assessment is not required for substances that are not classified as hazardous.

### SECTION 16: Other information

#### Other important information about human health protection

The product must not be - unless specifically approved by the manufacturer/importer - used for purposes other than as per the Section 1. The user is responsible for adherence to all related health protection regulations.

#### Key to abbreviations and acronyms used in the safety data sheet

ADR	European agreement concerning the international carriage of dangerous goods by road
BCF	Bioconcentration Factor
CAS	Chemical Abstracts Service
CLP	Regulation (EC) No 1272/2008 on classification, labelling and packaging of substance and mixtures
EC	Identification code for each substance listed in EINECS
EC <sub>0</sub>	Concentration of a substance when it is affected 0% of the population
EINECS	European Inventory of Existing Commercial Chemical Substances
EmS	Emergency plan
EU	European Union
EuPCS	European Product Categorisation System
IATA	International Air Transport Association
IBC	International Code For The Construction And Equipment of Ships Carrying Dangerous Chemicals
ICAO	International Civil Aviation Organization
IMDG	International Maritime Dangerous Goods
IMO	International Maritime Organization
INCI	International Nomenclature of Cosmetic Ingredients
ISO	International Organization for Standardization
IUPAC	International Union of Pure and Applied Chemistry
LC <sub>0</sub>	Lethal concentration of a substance in which it can be expected death of 0% of the population
LC <sub>50</sub>	Lethal concentration of a substance in which it can be expected death of 50% of the population
LD <sub>50</sub>	Lethal dose of a substance in which it can be expected death of 50% of the population
log K <sub>ow</sub>	Octanol-water partition coefficient
OEL	Occupational Exposure Limits
PBT	Persistent, Bioaccumulative and Toxic
ppm	Parts per million

legal basis:  
COMMISSION REGULATION (EU) 2020/878 of 18 June 2020 amending Annex II to  
Regulation (EC) No 1907/2006 of the European Parliament and of the Council (REACH)

## POLLOCEL / POLOFIX

Creation date	29th May 2024	Version	1
Revision date			

REACH	Registration, Evaluation, Authorisation and Restriction of Chemicals
RID	Agreement on the transport of dangerous goods by rail
UN	Four-figure identification number of the substance or article taken from the UN Model Regulations
UVCB	Substances of unknown or variable composition, complex reaction products or biological materials
VOC	Volatile organic compounds
vPvB	Very Persistent and very Bioaccumulative

### Training guidelines

Inform the personnel about the recommended ways of use, mandatory protective equipment, first aid and prohibited ways of handling the product.

### Recommended restrictions of use

Uses advised against: Any type of use not listed in this Safety Data Sheet.

### Information about data sources used to compile the Safety Data Sheet

REGULATION (EC) No. 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL (REACH) as amended. REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. Data from the manufacturer of the substance / mixture, if available.

### The changes (which information has been added, deleted or modified)

Version 1.

### More information

Classification procedure - calculation method.

### Statement

The safety data sheet provides information aimed at ensuring safety and health protection at work and environmental protection. The provided information corresponds to the current status of knowledge and experience and complies with valid legal regulations. The information should not be understood as guaranteeing the suitability and usability of the product for a particular application.
